

## Liability Release Form for Equine Activities

I understand that horseback riding and handling of horses are inherently dangerous activities because of the unpredictable nature of horses regardless of their training or past performance. I am aware that horses used may, without warning or any apparent cause, make unpredictable movements such as buck, stumble, fall, rear, bite, kick, run, spook, jump obstacles, step on, or shove its handler, all of which may result in serious injury or death to the horse or handler. I voluntarily assume the risk and danger inherent in handling or riding horses.

To help ensure a safe experience, I agree to wear appropriate riding gear including an SEI approved helmet, long pants and boots with a small heel.

I agree to indemnify and hold harmless Tara L. Cummings against all suits, actions, claims, demands, injury, or death that arise from any horse-related activities either instructed or supervised by her.
